Some teachers become National Board Certified Teachers (NBCT) because...

- They want to take their practice to another level
- They believe educational justice requires that all students are taught by exemplary teachers
- They want new opportunities for advancement
- They ask what is it that I did today that I can do better tomorrow?

If you are a teacher with at least 3 years of teaching experience, you may be ready to take on the next level of professional development, a learning experience that was developed by teachers – National Board Certification.

To support members who are starting on this journey, the California Teachers Association is offering Jump Start!, a precandidacy program for teachers interested in becoming National Board Certified Teachers (NBCT). The 3-day seminar is designed to provide you with important information about the certification process in a supportive, collegial environment, facilitated by experienced NBCTs. You will leave with a clear understanding of the certification process and your own action plan for completion. Choose the dates and location that work for you.

### 4 California Locations – 4 Dates
